## Introduction of Univar Hydraulic Oil V3 32

We are now expanding our portfolio with an outdoor hydraulic oil in smallpack and are introducing Univar Hydraulic Oil V3 32 in 5 litre package. Univar Hydraulic Oil V3 32 are a high quality, high VI hydraulic oil based on carefully selected base oils and additives suitable for heavy duty, mobile and industrial hydraulic systems.

Product will be launched in ISO VG 32 due to better cold start properties as we find it is used in home appliance machines as log splitters. The package will also make it easier for top up in smaller hydraulic systems.

Also recommended where a hydraulic oil are subscribed, for use in garden machines and auxiliary equipment without any special environmental demands, in such applications we recommend use of ECL type of product.

Material number	Product name	Description
2004433	Univar Hydraulic Oil V3 32	4*5 L

Product will only be launched in 5 litre pack, for larger packs we recommend the use of Shell Tellus S3 V 32.

If in doubt, you can find Shell lubricant recommendations on Shell Lubematch or scanning the QR code below.
