

Product News Issue 7 - 2013

Product withdrawal: Shell Calibration Fluid S-9365 and Shell V-Oel 1404

Shell Calibration Fluid S-9365 was withdrawn some time ago and replaced by Shell V-Oel 1404. Now Shell V-Oel 1404 will soon be leaving the Univar lubricants portfolio. This is caused by the fact that Shell have/will stop the production of these products. The introduction will be as a soft launch. Which means we change as soon as we are stock out of the old SKU.

Replacement: Univar Calibration Fluid 1487

Applications: Calibration fluid for diesel fuel injection systems

The new product will meet the current specifications and be fully compatible with the former Shell grades.

Old number	Old product name		New number	New product name
1006239	Shell V-Oel 1404 1*203L	}	2005113	Univar Calibration Fluid 1487 1*209L
1005937	Shell V-Oel 1404 1*20L		2005114	Univar Calibration Fluid 1487 1*20L
550023784	Shell Calibration Fluid S.9365 1*203L			
550014348	Shell Calibration Fluid S.9365 1*20L			

If in doubt, you can find Shell lubricant recommendations on Shell Lubematch or scanning the QR code below.
